Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

We will send you a sample free.
Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

The young couple are among the most popular of Lehi's young people and the Banner joins in wishing them all the good things of life.

It is reported that last week two young men employed at the Sugar Factory got into an altercation and when coming home concluded to settle the affair near the stock yards of the factory. While one young man was removing his coat his antagonist struck him in the eye. The man with the black eye then proceeded to make the other ones face look like black and red raspberry jelly and succeeded pretty well, too. Nearly all who were on night shift helped to form the ring and witnessed the mill with free tickets.
